DETAILED ACTION

Claims 1-9 are currently pending.

Claim Rejections - 35 USC § 103

The rejection of claims 4 and 5 under 35 USC § 103(a) is maintained. The applicant argued that the rejected compounds possess unexpected properties making them non-obvious over the cited prior art. The argument was not found to be persuasive. The compound is obvious over the prior art for the reasons described in the prior office action; these reasons are not negated by the argument that the intermediate compound is useful in a reaction. To support the applicant's assertion of nonobviousness, the applicant provided only arguments and no evidence in the form of declarations, etc.

Conclusion

1. The claims are not in condition for allowance. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
